Re: Isis Bey,
Harmony Health Therapeutic Services, PLLC
Charlotte, NC 28215

To Whom It May Concern:

On behalf of the Board and Officers of OBey Foundation, I want to send my sincere gratitude and appreciation to Isis Bey. Since promoting the first cultural service trip in Ghana, West Africa in 2020, Isis Bey has set the stage for various individuals and groups to help OBey Foundation further its international mission work. Through her efforts, group tours have raised over \$8,000 for our mission work in Ghana; many boxes of health care supplies for the Brenu Health Clinic that OBey manages; school uniforms for needy students; malaria screening and treatment for over 1,000 villagers; insurance card renewals/registration for over 1,000 individuals.

While preparing for the cultural heritage service trips, Isis offers up invaluable information sessions to answer all inquiries from travelers and keeps them informed about all aspects of their tour. This is crucial given the anxieties that most first time West African travelers experience. A bonus for OBey Foundation is Isis' ability to assess strengths and weaknesses of the OBey staff during tours. She uses her management skills to encourage and incentivize staff strengths and offer training opportunities for staff in need.

Job well done Isis Bey, IAB Consulting and Harmony Health. OBey Foundation looks forward to more service trips and expanding our working relationship beyond its current successful status.

Sincerely,

Kojo Bey
